

Wet wash gloves with cleansing solution *Single-use*

hygienic[™]
Fragrance free
Latex free

The *hygienic* wet wash gloves made of polyester are both soft and ultra resistant. Containing no soap or alcohol, they are perfect for bed-ridden patients, incontinent patients, those requiring home care and can even be used during leisure activities. The gloves are soaked in an aloe-based cleansing solution. The cleaning gloves can be warmed up in a microwave oven for greater comfort.

In health care institutions, the bowl-less toilet helps lessen the risks of transmitting pathogens from patients to health care personnel or even to other patients.

Glove size: 9 x 6.75 in / 23 x 17 cm

Wet wash gloves with cleansing solution

Waterless bathing!

BENEFITS

- Single-use
- Prevent cross contamination
- Avoid the clean-up / disinfection of conventional bathing accessories
- Save time and reduce costs associated with traditional bathing
- Allow complete bathing for bedridden patients
- Avoid wet bed linens and wet patient gowns
- Fragrance free, alcohol free, paraben free
- Eliminate clean-up and disinfection of accessories after bathing
- No water or drying
- Safe for all skin types, including newborns and geriatric patients
- Self-drying; eliminates abrasion to skin surface when drying and helps prevent incomplete drying that can lead to skin maceration
- Conditions and moisturizes skin
- Does not pill or shed particles
- WARM in a microwave for more comfort

IDEAL FOR

- Patients with known/suspected sensitive skin
- Home care
- Nursing homes
- Patients who are reluctant to bathe
- Geriatrics: when a patient is too weak for standard bathing methods
- Oncology: avoids contaminated linen for patients having chemotherapy
- Intensive or palliative care: when other bathing methods are impractical
